

DB Engineering & Consulting USA Inc.

Principal Consultant / Planning & Scheduling, California or Chicago

Job-ID: EC01677
Region: California or Chicago

Railways for the world of tomorrow!

DB Engineering & Consulting (DB E&C) is a part of the **DB group**, a world leading global railway company with an extensive organization in Germany and projects around the world. Our company offers technically sophisticated and customized infrastructure, mobility and transport solutions. With our sustainable concepts, gained from our experience in project work for decades, we ensure the future success of economic regions, make important contributions to the protection of the environment and help shape the world of the future. We represent **180 years of rail experience** and our infrastructure projects connect continents. We set the standard for transportation and modern mobility.

We are seeking an innovative and experienced **Principal Consultant with the focus area of Planning & Scheduling**. In your role, you assume responsibility for a part of DB E&C's market in North America. You will lead a team of Consultants and deliver strategically important consulting services, supervise projects and develop new business opportunities in North America. The position gives you many opportunities to demonstrate your entrepreneurial thinking, become a trusted adviser to your clients and an inspiring leader to your team.

You will be part of an innovative team, contributing to the modernization of rail systems in North America and reporting to the Director of Consulting North America. It requires a highly responsible, independent and accountable individual who communicates clearly, efficiently and proactively. The job opening is located in California or Chicago, and offers exciting challenges and potential for career growth.

Your responsibilities:

- Supervises consulting projects managed by reporting Senior Consultants:
 - Ensures quality, cost control, and profitability
 - Reviews and approves methodology and approach of projects
 - Supports professional development of Senior Consultants and Project Engineers
- Delivers consulting services:
 - Acts as the Project Manager and as a key resource on strategically important and/or innovative projects
 - Transforms successful innovative projects into regular services that can be performed by Senior Consultants
- Develops DB E&C's business:
 - Recruits, develops and manages team of reporting Senior Consultants and Project Engineers
 - Leads Senior Consultants' project acquisition efforts
 - Pursues strategically important new business opportunities

DB Engineering & Consulting USA Inc.
